DETAILED ACTION

Acknowledgment

1. The amendment filed on 5/11/2005 has been entered.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Vincent Sunderdick on 5/12/2005.

The application has been amended as follows:

Claim 1, line 3, after "exhaust system of" change " a motor vehicle" to -- said motor vehicle --

Claim 1, line 21, after "is fastened by" deleted "means of"

Claim 13, line 10, after "is fastened by" deleted "means of"

Allowable Subject Matter

3. Claims 1, 4-15 and 17-20 are allowed.
4. The following is an examiner's statement of reasons for allowance.

The prior art does not teach the rear covering part of a motor vehicle as recited in claims 1 and 13, which include a tail pipe orifice fastened to the rear covering part for an exhaust system of the motor vehicle. The tail orifice comprises an air inlet section including an inlet opening, which communicates in a non-contacting manner with a tail pipe of the exhaust system and extends over the tail pipe. The tail orifice also includes a transition section situated between the inlet opening and an outlet opening. The transition section tapers in a cross section. The tail orifice also includes an interior cross-section of the inlet opening, which is larger than the exterior cross-section of the tail pipe. Wherein the tail pipe orifice is constructed as a double-wall pipe with a jacket for air can flow and wherein the tail pipe orifice is also fastened by several strip-shaped fastening lugs originating from an exterior pipe wall of the double-walled pipe to the rear covering part by way of a fastening frame. This recitation, in combination with the rest of the recited elements, clearly defines over the prior art.
